JENISH CALEB V

jenishcaleb@gmail.com Tuticorin, Tamil Nadu linkedin.com/in/jenish-caleb-v/

OBJECTIVE

Dedicated and passionate student with strong communication skills, eager to continuously learn and develop professionally, to stay aligned with the evolving needs of the industry, striving to contribute effectively and grow in a dynamic, fast-paced environment

INTERNSHIPS

Cisco – Cybersecurity & Networking Intern 06/2025 – 08/2025
REMOTE

- Gained practical knowledge of networking fundamentals and cybersecurity concepts.
- Explored network simulation using Cisco Packet Tracer and learned basic threat detection and security practices.

Innovate Intern – Machine Learning Intern 06/2024 – 07/2024
CHENNAI

- Explored machine learning fundamentals and basic image processing techniques.
- Gained exposure to AI concepts and their practical applications through internship activities.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering 08/2023 – Present
Karunya Institute Of Technology And Sciences Coimbatore,
B.Tech in Computer Science and Engineering. Tamil Nadu

Higher Secondary Certificate (HSC) 06/2008 – 04/2023
Anitha Kumaran Matric. Higher Secondary School Udangudi, Tamil Nadu
HSC - 81.1 %

SKILLS

Technical Skills

- **Creative Web Design & UI Development -** Ability to conceptualize, design, and develop visually appealing, user-friendly websites with creative layouts and modern design concepts.
- **Al Prompt Engineering -** Skilled in crafting effective prompts to generate, refine, and optimize content, designs, and solutions using Al tools.

CERTIFICATES

- Microsoft Azure Fundamentals (AZ-900)
- Oracle Agentic AI Certified Foundations Associate
- Enterprise Security in Practice
- Microsoft Certified: Azure Data Fundamentals
- AWS Cloud Practitioner Essentials

PROJECTS

Neuroimaging-Based Machine Learning for Early Alzheimer's Disease Prediction 2026
A machine learning-based approach to analyze neuroimaging data and identify early indicators of Alzheimer's disease to support timely intervention.

Vision Transformer Based Pneumonia Detection With Low Latency Edge Deployment 2025
An AI-based pneumonia detection system using Vision Transformers to analyze chest X-ray images and enable fast, accurate predictions through edge deploymen

Aarogya Sahayak AI 2025
An AI-powered healthcare assistant designed to provide intelligent health guidance, symptom analysis, and accessible healthcare support.

ORDO – AI-Powered Workflow Dependency and Evidence Verification System 2026
An AI-powered system to analyze workflow dependencies, verify supporting evidence, and improve process accuracy through intelligent automation.

AREA OF INTEREST

- UI/UX Design
- Website Layout & Visual Design

INTERPERSONAL SKILLS

- Conflict Resolution
- Strong Leadership
